Webshop Revenue — Achievement & Next Fixes

spanset.com backend dashboard · captured 10 Nov 2026

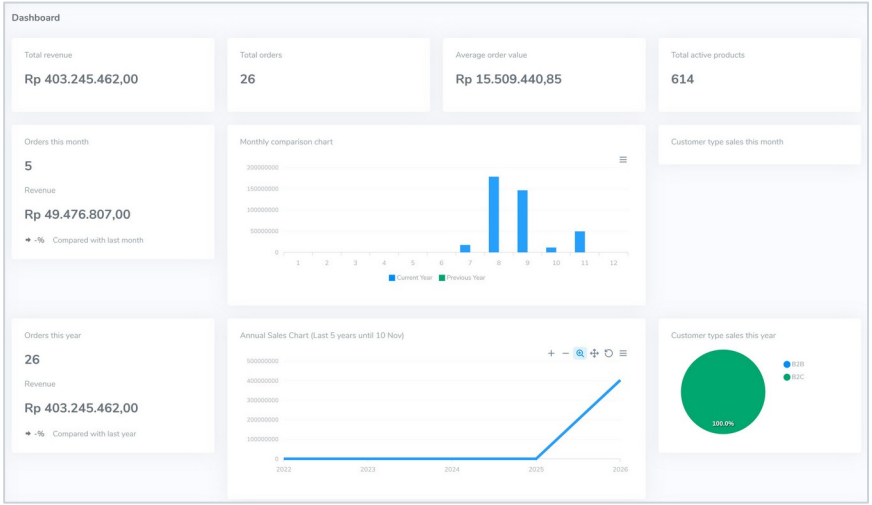

Rp 403.2M	26	Rp 15.5M
Revenue 2026	Orders	Avg order value

Achievement

Rp 0 webshop revenue in 2022–2025. After I joined in May 2026, the first sale came in July; by 10 Nov the webshop reached Rp 403.2M, peaking at about Rp 179M in August.

What to fix next

- **Conversion:** October fell to about Rp 11M. Add RFQ and WhatsApp CTA on product pages; shorten checkout.
- **Traffic direction:** clicks land on blogs (11.7% to product pages vs 15–30% target). Link blogs to products.
- **Search intent:** category, product and article pages compete for one term. Re-map keywords by page type.
- **UI/UX:** price and add-to-cart visible on mobile; sales are 100% B2C, so add a B2B order path.

04 · SEO AUDIT

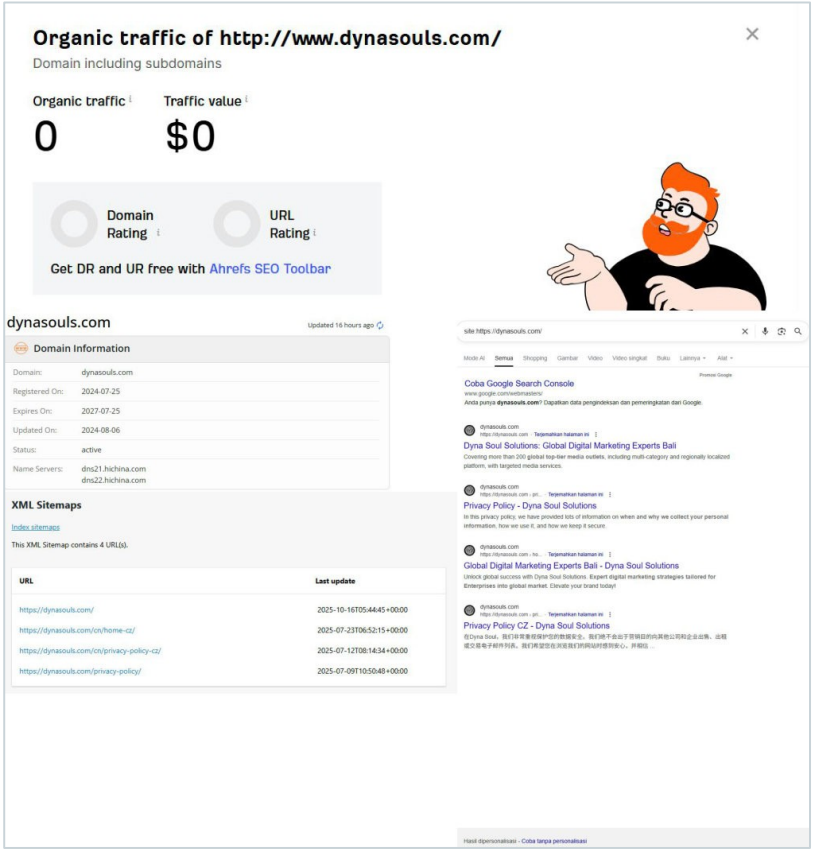

Dynasouls.com

Creative digital agency, Bali — strategy, keywords, content, competitors and website fixes

1. SEO Strategy & Indexing

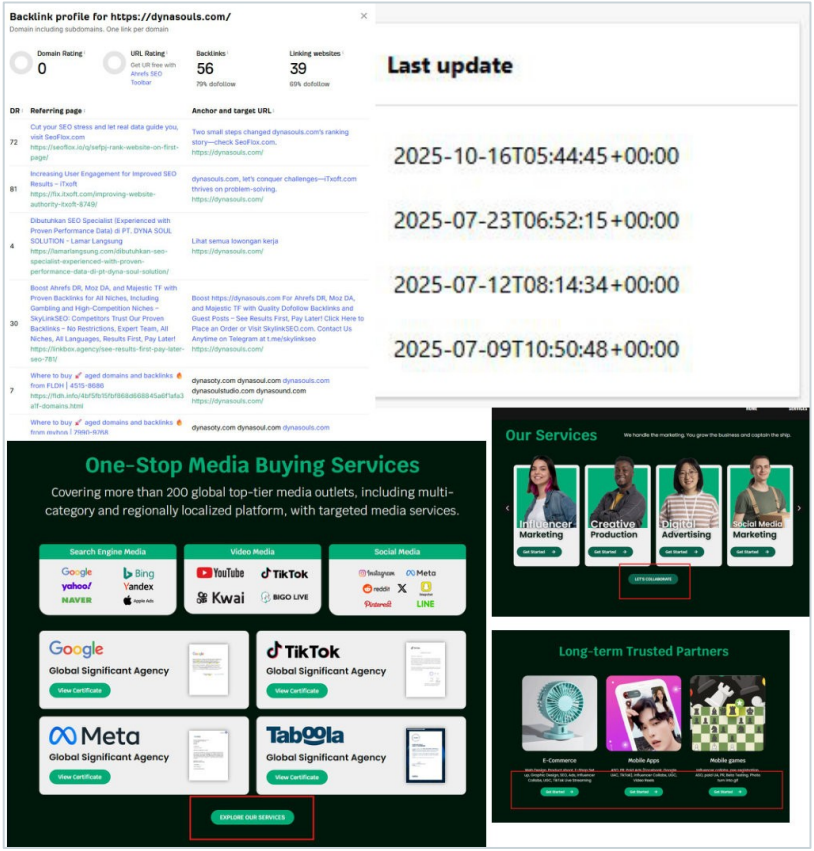

Findings

- The site has been live for 15 months, but organic traffic is still near zero.
- Only 4 pages are indexed by Google.
- sitemap.xml lists no other URLs for Google to crawl.
- 4 identical Google Tag Manager containers are installed (GTM-NGVXBDJC).

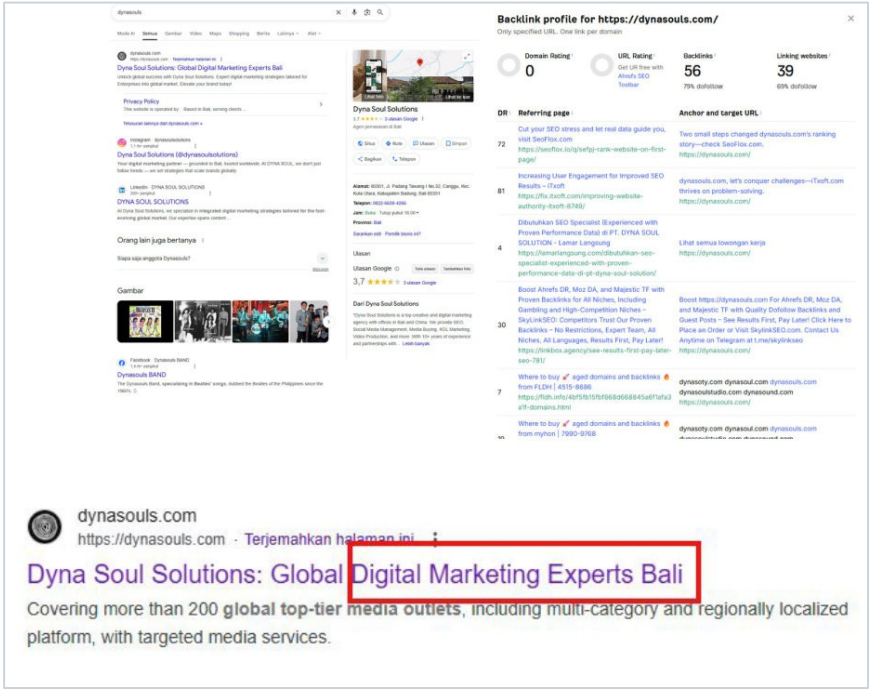

1.1 On-page Factors

- Low traffic: most content was only published recently, although there has been enough time for Google to crawl it.
- More content needed: describe the homepage, products, services and who Dynasouls is. A blog is essential to reach more keywords.
- More external than internal links: most sections send users to WhatsApp, which raises bounce rate.
- Multiple GTM containers cause performance issues, tracking conflicts and data leakage. Best practice is one container per site.

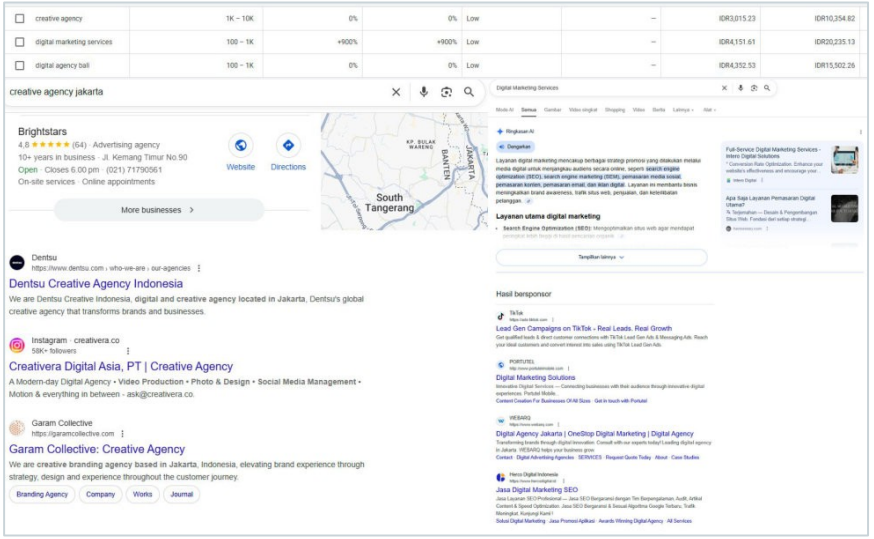

1.2 Off-page Factors

- The backlink-to-referring-domain ratio is good, but most referring domains have low authority and say little about the services or company.
- No backlinks come from rich content such as guest posts or advertorials in the brand's niche.
- Needs local authority domains (national news, local blogs) to meet Google's E-E-A-T, since the brand targets Bali keywords.
- Needs social signals from other creators, not only Dynasouls' own channels.

1.3 SERP & Keyword Competition

- "Digital marketing services" is highly competitive: per Keyword Planner, the SERP is dominated by ads.
- Even at #1, the result sits below 3–4 paid ads, a featured snippet and AI results.
- "Creative agency" and "creative agency service" are more approachable: higher volume, lower cost.
- Top results across regions put the brand name first in the title, use a full description and state the services clearly.

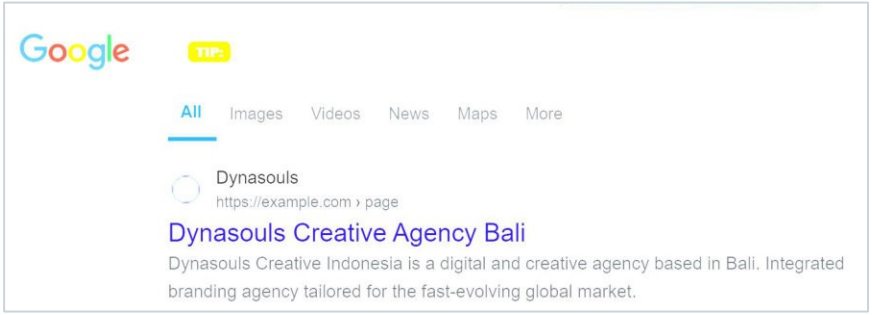

1.3.1 Recommended Title, Description & Headings

Title options

- Dynasouls Creative Agency Bali
- Dynasouls: Creative Digital Agency Bali
- Dynasouls | Bali Creative Digital Agency

Meta description

Dynasouls Creative Indonesia is a digital agency based in Bali. Integrated branding solutions tailored for the fast-evolving global market.

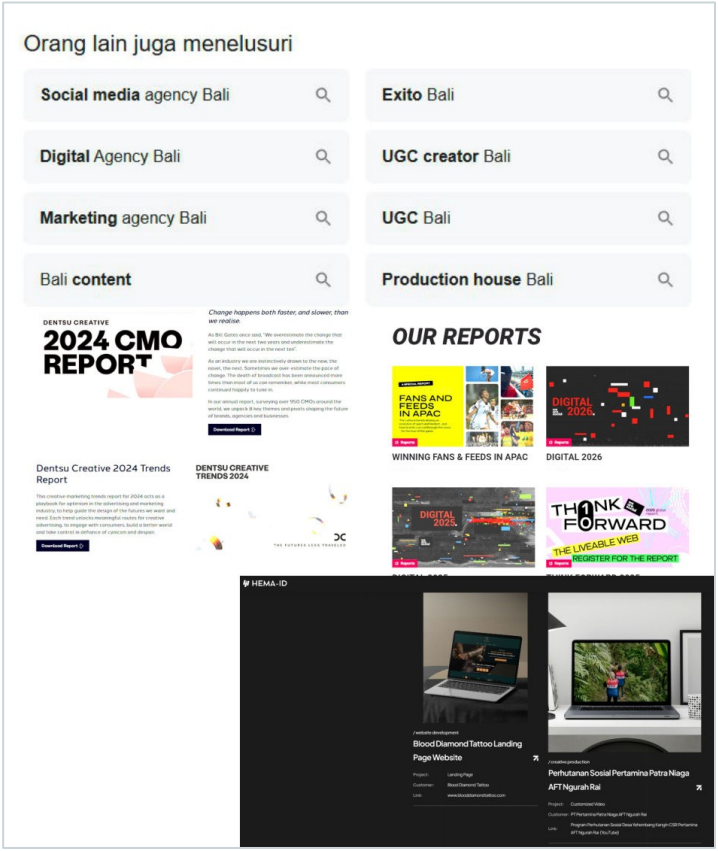

Headings

- **H1:** Dynasouls Creative Indonesia
- **H2:** Dynasouls Creative Services
- **H2:** Dynasouls Creative 2025 Portfolio

2. Keyword Research

- "People also search for" is one of the best ways to list potential keywords.
- Google ranks domains that show projects and portfolios higher, as they add Expertise and Trustworthiness.
- Every page-1 domain has a portfolio section, except the bottom three.

2.1 Keyword Recommendations

Head keywords: clear services

- Social media service
- Advertising solutions
- Best digital agency
- KOL influencer marketing
- Web design service
- TikTok ads marketing
- Brand marketing agency
- Web application expert
- Digital strategy consultant

Long-tail: what people ask

- Digital marketing agency pricing
- Full-service creative agency
- Creative agency for product launch campaigns
- Creative agency with a strong portfolio
- Creative agency for startups and entrepreneurs
- Video production expertise

3. Content & Blog Outline

Title: 8 Secrets of How a Creative Agency in Bali Could Increase Your Brand's Online Presence

H2: Why Bali's Creative Agencies Are Becoming Global Powerhouses

- H3: Audience segmentation is everything
- H3: High-conversion website experiences
- H3: Don't try to go viral, build trust that converts
- H3: SEO & content marketing for continuous organic traffic
- H3: Paid ad campaigns designed for maximum ROI
- H3: Photo & video production that lifts brand perception
- H3: Worldwide digital artist partners
- H3: Data analytics & reporting
- H3 (optional): Competitive pricing

H2: Why Partnering With a Bali Creative Agency Is a Smart Move

Global expertise, local creativity and digital skills in one partner.

H2: Call to Action

Writing angles

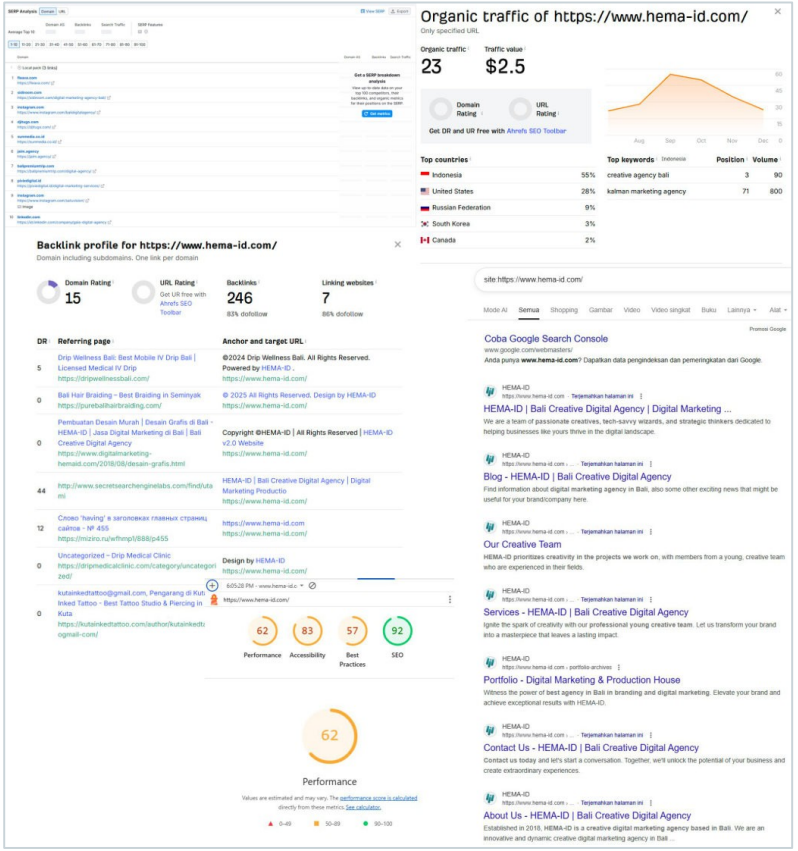

- Exposure doesn't pay bills; trust converts.
- Optimize for customers, not strangers.
- Websites as sales machines, not dead templates.

4. Competitor Analysis — HEMA-ID

hema-id.com · Creative branding, production house, digital marketing, events, web

Key points

- Ranks #3 for "creative agency Bali".
- Targets "Bali creative digital agency" with keyword stuffing in every page title.
- No other high-volume keywords; the backlink-to-referring-domain ratio looks spammy.
- Site metrics are too weak to compete long term.
- **Verdict:** we can take this position in 4–7 months with quality content and authority backlinks.

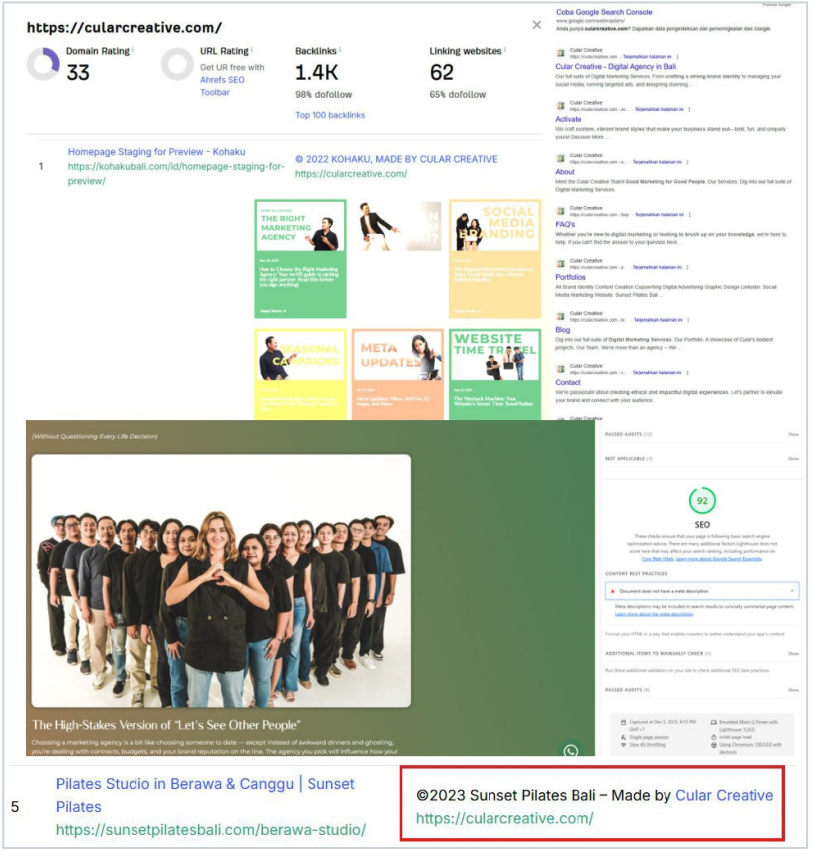

4. Competitor Analysis — Cular Creative

cularcreative.com · Graphic design, social media, copywriting, SEO & AEO

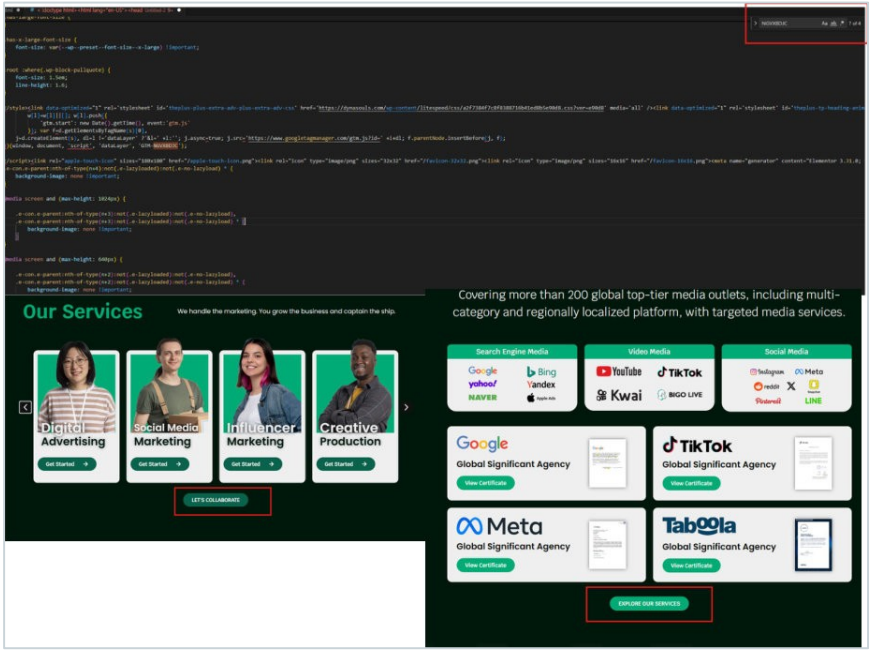

Key points

- Ranks #1 for "creative agency Bali" and #5 for "digital agency Bali".
- No keyword stuffing in titles; good domain rating, but spammy backlinks.
- Good blog content, though some posts miss basic SEO elements.
- Why they rank: a backlink in every client site's footer, so many links from few domains.
- A blog post ranks for "time travel website", bringing traffic outside their niche.

5. Website Improvement — On-page

- Keep one Google Tag Manager container; add Ads, Search Console and Analytics inside it.
- Build dynasouls.com/blog so more keywords can rank; thin content makes crawlers deprioritize the site.
- Monitor broken links, 404s and unindexed pages as the site grows.
- Keep the one floating "Contact us" button; section buttons should go to internal pages, not straight to WhatsApp.
- Shrink the cookie pop-up so it no longer hides the conversion button.
- Show the best projects on the homepage, each with a case-study post.
- Use an on-site contact form instead of Google Forms to keep users on the domain.

5. Website Improvement — Off-page

Private blog network (PBN)

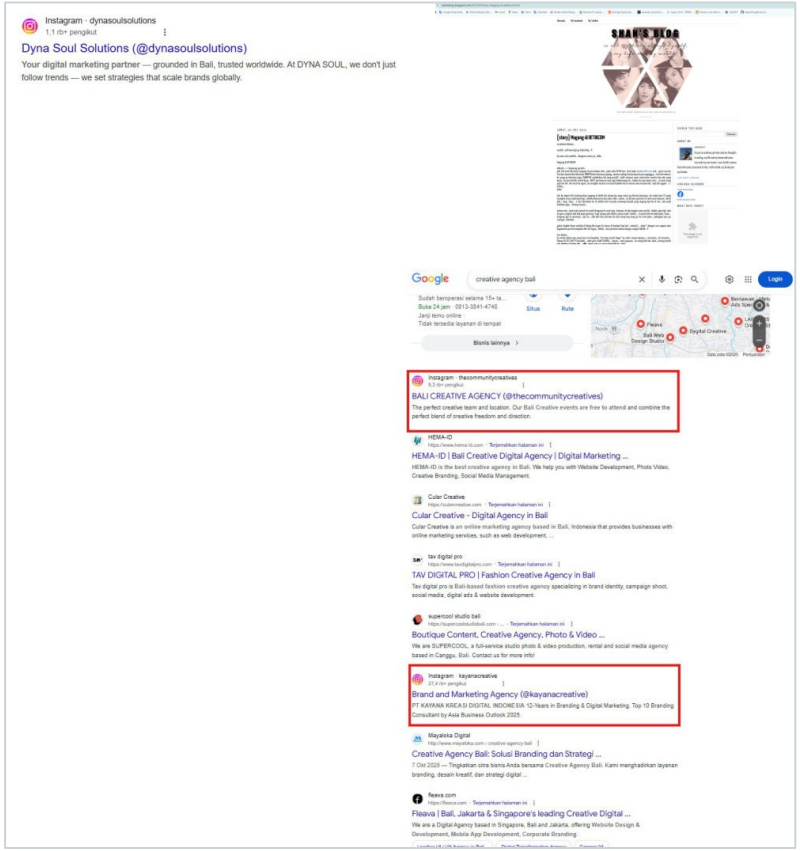

Beat competitors with long-term authority, not just a quick ranking. Example: a personal blog about interning at Detik that links out. A network of 10–50 similar blogs can compete in the long run.

Local backlinks

Since the target is Bali, high-authority local sites should link back to dynasouls.com to build authoritativeness.

Social signals

Google surfaces social profiles that use keywords. Social presence also builds trust and conversion.

05 · WEBSITE & ADS AUDIT

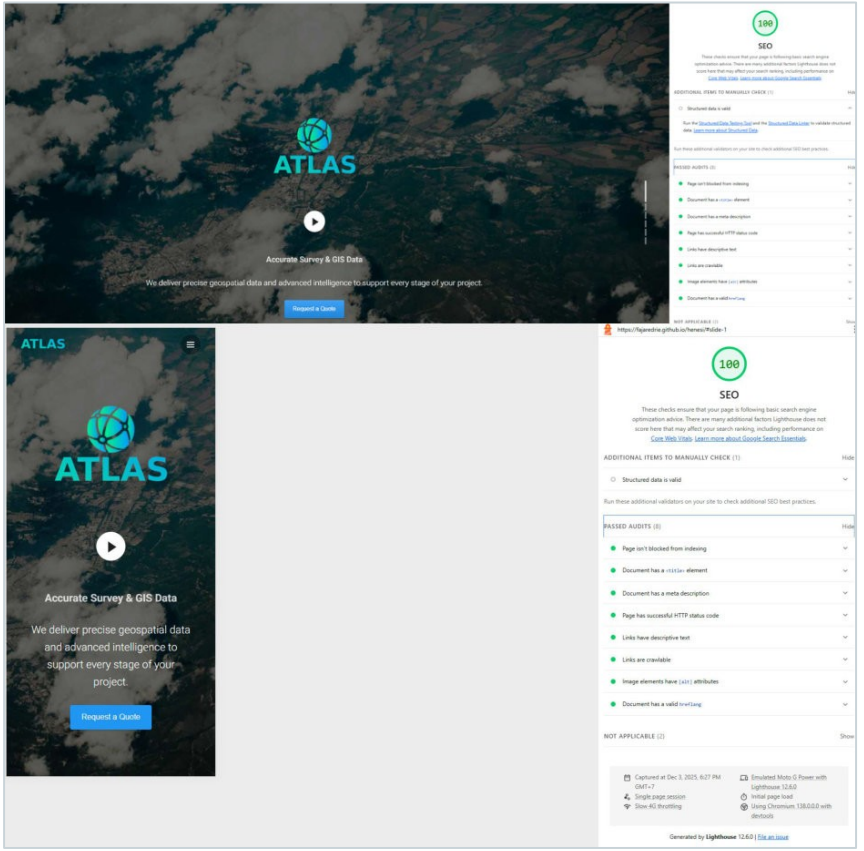

Henesi, Nexus & Atlas

Website build, SEO audit, Google Ads test, ad copy and market research

1. Website Dummy — Henesi

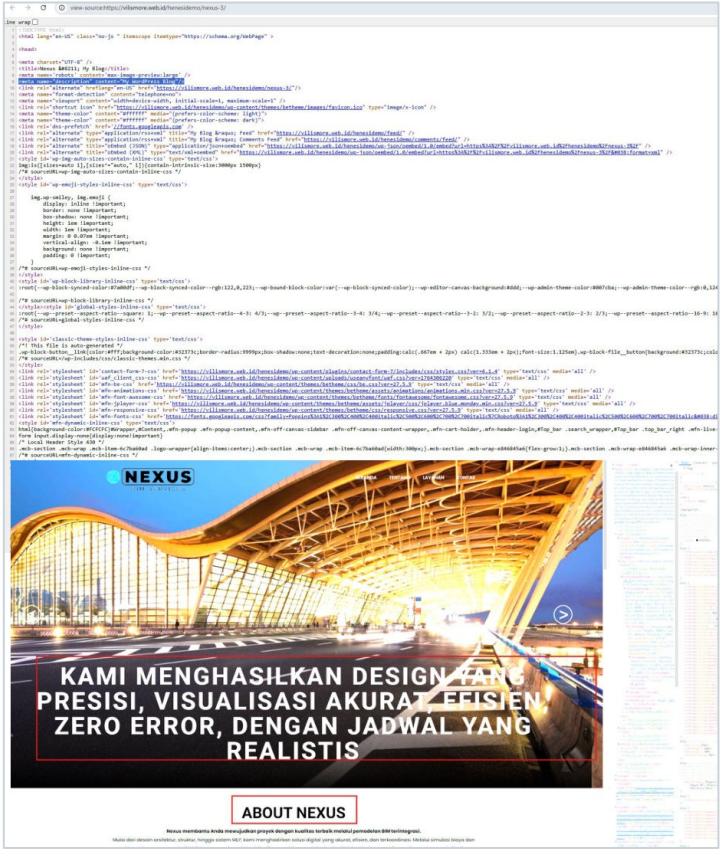

- Built a simple site on GitHub Pages: fajaredrie.github.io/henesi
- Lighthouse audit: perfect 100 SEO score on both desktop and mobile.
- The site publishes smoothly with no errors.

SEO Audit — Nexus Demo Site

vilismore.web.id/henesidemo/nexus-3

- 22 broken links that cannot be crawled.
- 291 errors in robots.txt (invalid entries).
- Meta description not relevant: "My WordPress Blog".
- Meta title not relevant: "Nexus – My Blog".
- Only a generic WebPage schema; missing Product, Review and Organization schema.
- H1 and H2 don't use target keywords, which sit in images instead.

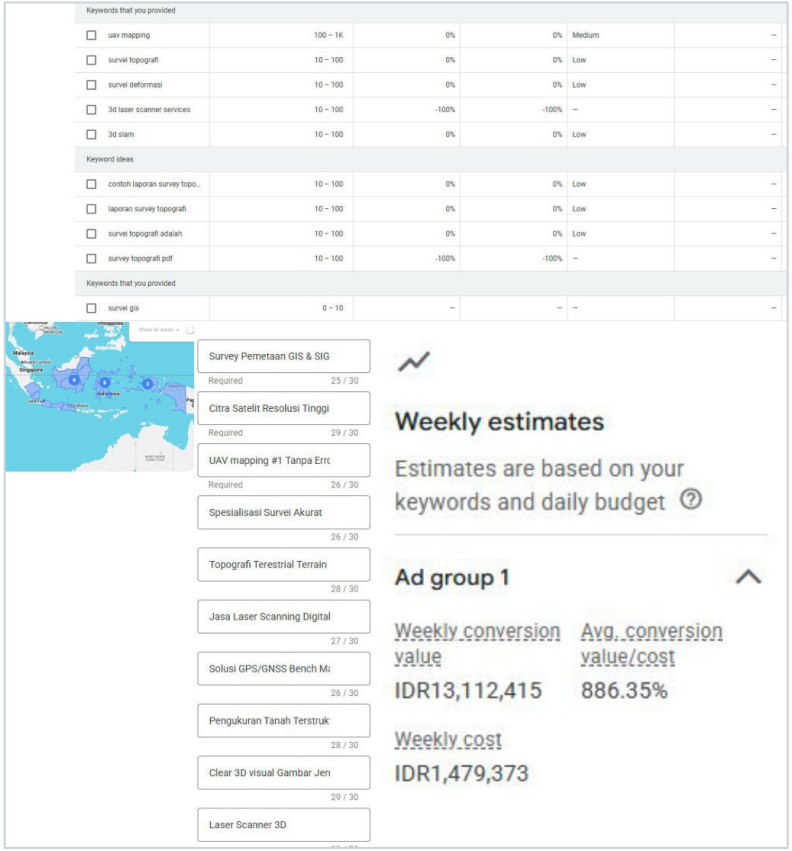

2. Google Ads Test — Atlas

UAV mapping, laser scanning and GIS survey services

886%	Rp 13.1M	Rp 1.48M
Conv. value / cost	Weekly conv. value	Weekly cost

- "UAV mapping" has the highest volume (about 1K/month); other targets: laser scanner, 3D laser scanner.
- **Objective:** leads · Search & Display Network
- **Bidding:** conversion value, target ROAS 500%
- **Targeting:** Indonesia (custom), Indonesian & English, custom segments

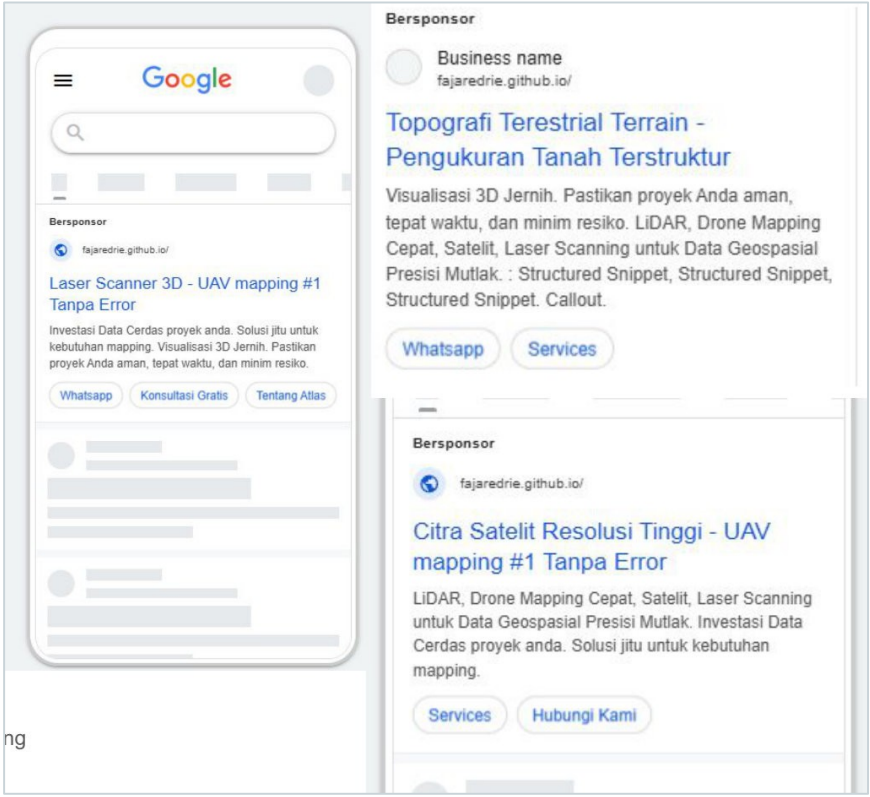

3. Ad Copywriting — Atlas

Headlines

- Survei Pemetaan GIS
- Citra Satelit Resolusi Tinggi
- UAV Mapping Tanpa Error
- Spesialisasi Survei Akurat
- Topografi Terestrial Terrain
- Jasa Laser Scanning Digital
- Solusi GPS/GNSS Bench Mark
- Pengukuran Tanah Terstruktur
- Laser Scanner 3D

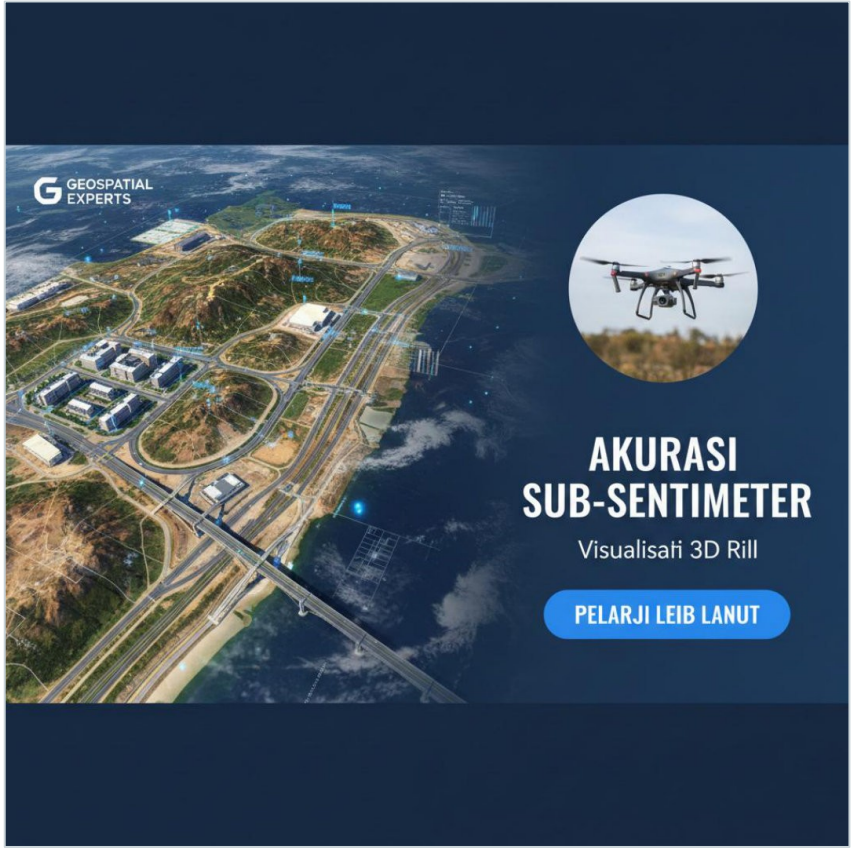

Descriptions

- Minimalkan jeda proyek! Data geospasial akurat dengan mapping tercepat.
- Integrasi drone, satelit & laser scanning untuk data paling presisi.

3. Visual for Google Display Network

Display ad concept for Atlas: drone mapping visual with a clear offer ("Akurasi sub-sentimeter, visualisasi 3D riil") and a single call to action.

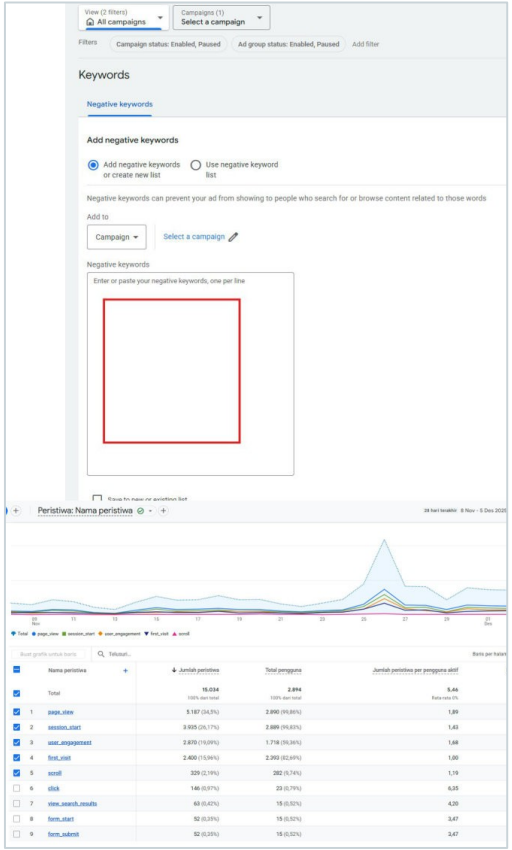

4. Technical Trivia — Lowering CPC

Lower & optimize CPC

- Exclude or pause irrelevant and low-performing keywords.
- Shift high-volume keywords to long-tail variants.
- Fix demographics and locations that get clicks but few conversions.
- Prepare a backup campaign.

Lead-quality tracking tools

- Google Analytics, Google Search Console
- HubSpot, Zoho CRM
- Ahrefs, Semrush

4. Technical Trivia — Clicks & Landing Pages

Prevent invalid clicks

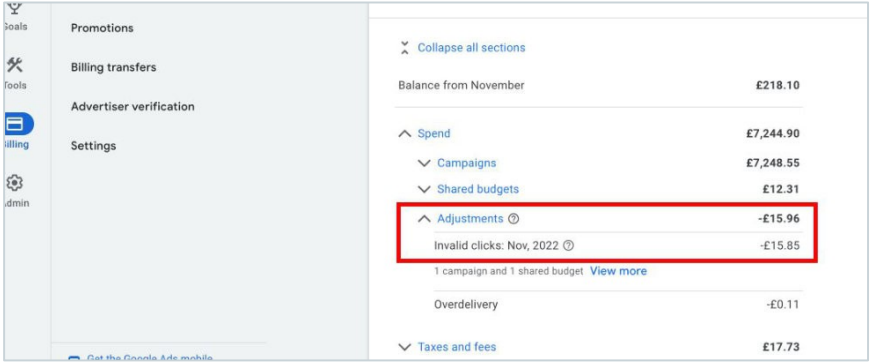

- Turn on Google Ads invalid click protection for notifications and refunds.
- Block suspicious IPs via Cloudflare, CMS or server.
- Use frequency caps so users don't click repeatedly and drain budget.

Landing page quality

- Fast, mobile-friendly, easy to navigate (Lighthouse).
- Above-the-fold content matches the ad clicked.

KPIs

- Impressions, CTR, CPC, Quality Score, conversion rate, CPA / ROAS

5. Market Potential by Region

Henesi Design Studio

Jakarta, Palembang, Yogyakarta, Bandung, Bali, Tangerang & South Tangerang

- Based on a past client in the same niche (Kostudio.id).
- High density, diverse demographics, easy logistics.

Nexus (BIM 3D modelling)

Banten, Jakarta, West/Central/East Java, Kalimantan, Sulawesi, Bali, South Sumatra, Batam

- National mega projects: MRT, LRT, TOD, high-rise, airports.
- Industrial estates (Gresik, Sidoarjo) and Batam manufacturing.
- Fast-growing villas, hotels and resorts in Bali.

Atlas (GIS & UAV mapping)

South Sumatra, Riau, Lampung, Kalimantan, Sulawesi, Papua

- Government geospatial planning, e.g. IKN infrastructure and forest monitoring.
- Mining firms need GIS, UAV and LiDAR for operations and AMDAL.

Other channels

- Government tenders & e-Katalog: large, repeat market.
- LinkedIn: best for closing high-value B2B deals.
- B2B marketplaces: Fastwork, Upwork.
- Meta Ads targeting mining, plantation and industrial developers.
- Email marketing: Mailchimp, HubSpot.

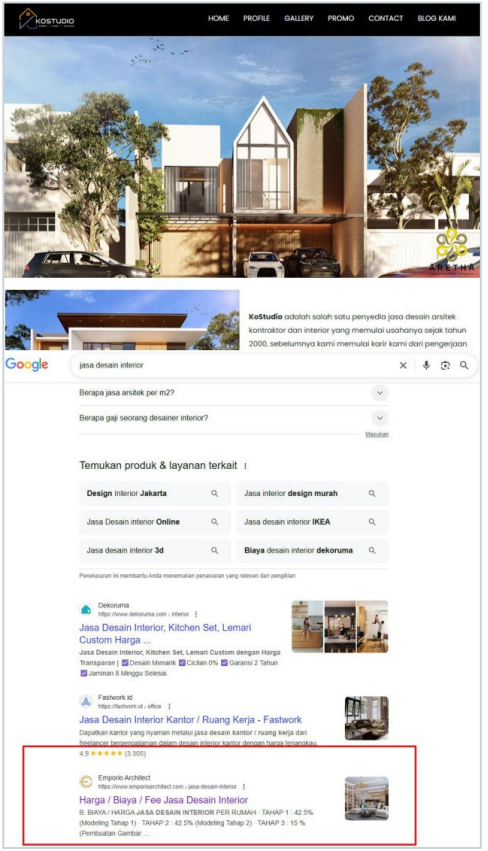

Kostudio

Architecture & interior design brand with five branches

Issues & Target

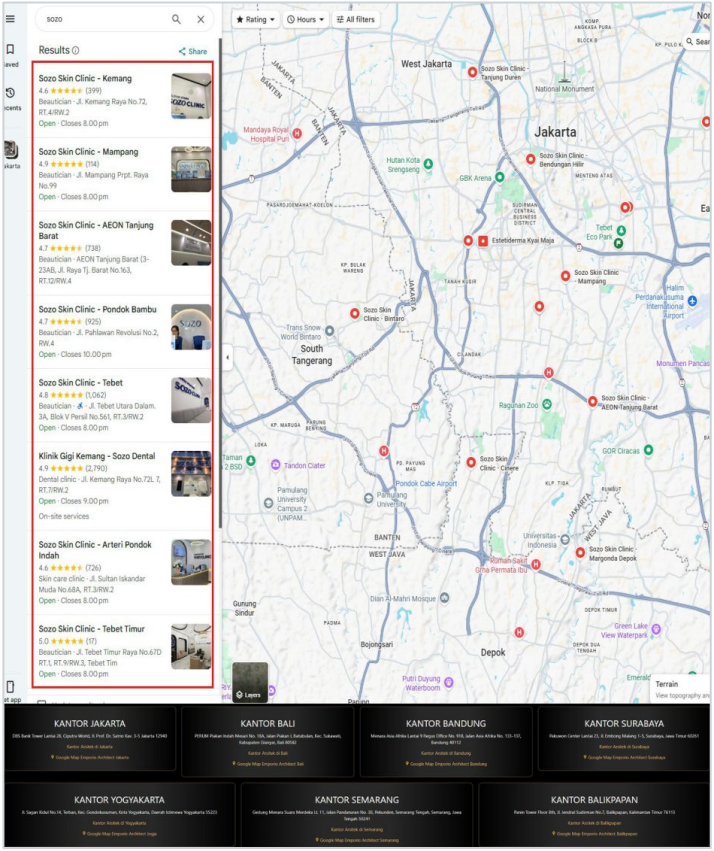

What the client wants

- Raise Kostudio brand visibility in every branch city.
- Refresh the website design.
- Outcompete Emporio Architect.
- Turn visitors into buyers and clients.
- Improve website rankings.

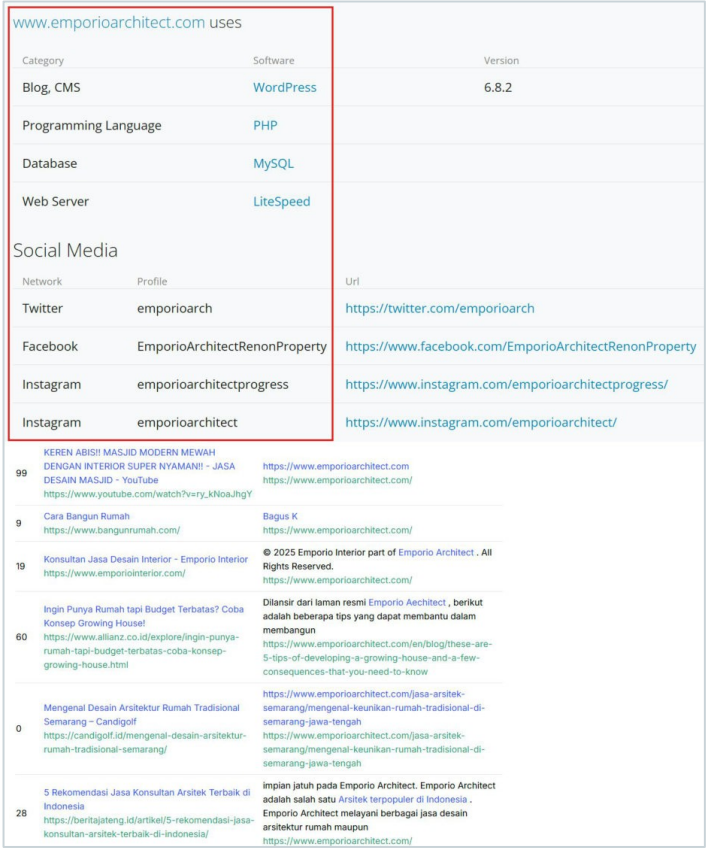

5 Branches, 1 Brand, 1 Central Control

- Build and maintain Google Business Profiles for 5 locations: Jakarta, Palembang, Yogyakarta, Bandung, Bali.
- Connect every profile to the website and social media.
- Keep website, contact and services identical across all profiles.
- Create a page per branch, e.g. kostudio.id/bali.
- Run all accounts on Google Workspace for security and control.

Competitor Research — Emporio Architect

- Runs on WordPress with its own custom theme.
- Buys advertorials on media, blogs and related sites that reference the business.
